Pioneer Drive, Kitchener, Ontario

EDUCATION

Graduate Certificate (Currently pursuing)

Web Development
Conestog College
Jan 2024 – April 2025

Bachelor's Degree

Computer Science
Ramdeobaba College
2016 – 2020

SKILLS

React
JavaScript
TypeScript
HTML, CSS
PHP
NodeJs
REST APIs
Express
MongoDB
Firebase
MySQL
GraphQL

CAREER OBJECTIVE

I am a passionate programmer, and have gotten my hands dirty with wide variety of front-end and back-end languages and frameworks. It is my goal to use my skillset in a professional environment, gain exposure and work together with a team to create scalable high performance web applications.

PROFESSIONAL EXPERIENCE

Project Management

Dec 2020 – Dec 2023

India

What I have learnt:

- Improved my managing skills by keeping track of the project status and funding on weekly basis.
- Improved my problem-solving skills by handling issues and setbacks or any changes that the clients require within the project.
- Improved my communication skills by scheduling calls with various application teams, stakeholders, and my superiors.

PROJECTS

Chat App (Full-Stack)

March 10th 2025

Github Link: [here](#) Try it Out: [here](#)

- A simple text-messaging app with login and friend-request system.
- Used React and TypeScript to handle the UI and MongoDB for the database.
- Utilised NodeJs, Express and GraphQL for backend integration.
- Encrypted every data stored in the database, i.e, user details and text messages.
- Explored various real-time database handling tools like graphql subscriptions. Settled with Pusher.

Portfolio (Front-End)

March 10th 2025

Github Link: [here](#) Try it Out: [here](#)

- Learn more about me through this visually appealing portfolio created using React.
- Using eye-soothing color sceme, visual design and animations that demonstrates my creativity and imagination.
- It highlights my work experience, hobbies and all the projects I ever worked on.
